

Mathematical Equation: U.S. Foreign Policy in Latin America

Directions: Download this document, answer the questions and bring it to class
Wednesday April 3rd.

Task:

1. Download your classmates mathematical equations.
2. Identify a common link/similarity between the equations.

3. What type of commentary are your classmates making about the various Progressive Era President's? Identify the names in the group and the commentary they are making. Must record answers for at least three separate groups (YOU MAY NOT WRITE ABOUT YOUR EQUATION)
 -
 -
 -

4. Which of all the mathematical equations do you believe was most successful? Why? You must use historical evidence to support your claim.
